Umweltcluster Bayern – internationally connected

Umweltcluster Bayern is your key to environmental technologies made in Bavaria. Located in the innovative heart of Europe, our objective is to develop intelligent and sustainable solutions for environmental challenges regionally and globally. Together with our > 200 members, we offer a broad range of expertise, products and services on international markets upon your specific request.

Gain access to state-of-the-art technologies and a large pool of know-how:

Waste management & Recycling

Water & Wastewater treatment

Site remediation

Air pollution control

Energy from waste & biomass

Resource efficiency

BE CONNECTED AND STAY INNOVATIVE!

In 2016, we hosted

- 24 international events, workshops and trainings with > 350 participants
- 19 business and political delegations from 15 countries
- 1 cross-cluster project, 2 innovation networks and 4 working groups

Join Umweltcluster Bayern and become part of a strong network!
